

## Summary

This document catalogues all of the light families that come with the RevitWorks Electrical bundles and lists all the relevant floor, wall and ceiling symbols related to them.

Please note that this catalogue shows the out-of-the-box family "types" supplied - the user can create more types to suit different brightness levels, electrical loadings, materials and/or to change their shape and size.

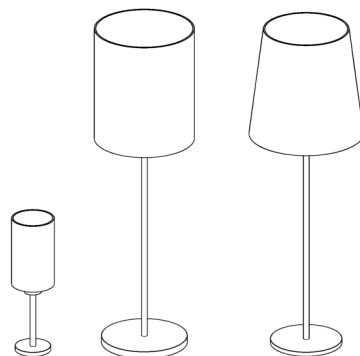

Please refer to the Lighting Specification.pdf for lists of parameters, detail level and object style explanations etc.
